Fall & Spring Excursion

Each year the African American Student Alliance embarks on two adventures. Both are geared toward giving students an opportunity to experience a place rich in history and develop a better understanding of the history each of the destinations possess. The Fall Excursion is generally to another state or country and as implied by the name takes place in the fall. The Spring Excursion on the other hand is typically local and allows for students to experience history right here in their backyards.

Purpose

The African American Student Alliance (AASA) was founded in the interest of creating a multicultural college environment from the African Diaspora perspective. AASA will accomplish this by fostering self-understanding and pride amongst people of African ancestry and individuals interested in the African culture and heritage with substantive and ongoing evidence of educational and social programming which promote diversity, enhance literacy and understanding between cultural entities. Having the duties of government prescribed by Kennesaw State University and monitored by the Assistant Director for Multicultural Student Retention Services under the Department of Student Development in conjunction with the Vice President for Student Success and Enrollment Services, we do hereby enact these bylaws.
