STUDENT HIGHLIGHT

Meet Sheryl

- Second year general biology major at KSU.
- After graduating, I would like to intern at the GBI in Atlanta, Georgia in order to pursue my career in forensic sciences.
- My favorite author would have to be Mary Downing Hahn. Her mystery books, I believe, were the catalyst in my passion for crime solving.
- If I could give advice to a KSU student, it would be that if you’re ever feeling stressed/overwhelmed from school workload, make a checklist of what all needs to be done, and check off the list as you go. Visually seeing items getting checked off is more satisfying than people think.
